Qld

Which area/s of the draft Strategy are you commenting on (select all that apply):

Targets for reducing deaths and serious injuries , The themes – safe roads, safe road use, safe vehicles and speed management , Movement and place, The social model , Risky road use

What is your primary area of interest in road safety?

There is much emphasis on all levels of Government and employers but very little accountability and responsibility on the driver.

This should be treated as a High Risk task as evidenced by the requirement to hold a valid licence and the consequences of mishap.

What road safety issues are the most important to address?

Culture and behaviour of road users.

Suggest a close look at the culture of road users in places like Canada and Alaska.

What do you believe are the strengths of this draft Strategy?

Ties most elements together.

Is there anything important that you think is missing from this draft Strategy?

Culture and driver attitude / behaviour.

Road rage, dangerous driving and risk taking with very little consideration to other road users continue to be normalised - there is court mandated technology that can be fitted to cars to prevent alcoholics from driving, similar steps should be considered for other habitual offenders.

Do you give permission for your submission to be published on this website following the end of the consultation period?

Yes
